PROFILE
SUMMARY

High-performing Business Computing graduate with strong grounding in technology, operations, and business systems, complemented by hands-on experience in a large enterprise environment at Kenya Power & Lighting Company (KPLC). Demonstrates strong analytical thinking, digital fluency, and customer-centric problem-solving, with a proven ability to adapt quickly, collaborate across teams, and deliver reliable operational support. Motivated to grow within a structured graduate program that develops leadership, commercial awareness, and digital capability in a dynamic financial services environment.

PROFESSIONAL
EXPERIENCE

Kenya Power & Lighting Company (KPLC) May 2024 – August 2024

IT Intern

- Supported core IT and operations functions in a large, regulated organization, ensuring system reliability and service continuity.
- Provided first-line technical support to users, resolving system access, application, and hardware issues while maintaining service documentation.
- Assisted in LAN and network infrastructure support, including connectivity troubleshooting and performance monitoring.
- Participated in ICT asset management, updating inventories and tracking enterprise hardware and network components.
- Contributed to process improvement initiatives, supporting workflow automation and adoption of digital tools to enhance operational efficiency.
- Collaborated with cross-functional teams, demonstrating professional communication, accountability, and attention to detail in a high-demand environment.
